

Ideas With No Space (Opinion Letters to Newspapers – MAK HERP; 2015)

In addition to writing books, papers and speeches, Tlou Setumu has been writing opinion letters to various media houses and newspaper publications. Few letters were published. Most of the published letters were cut and edited to suit the particular newspapers in terms of length, space, readers' tastes, ideological outlook, etc. So, the original letters written never got SPACE, and the IDEAS in such letters were reduced and compromised as they had NO space. This book is a sample of such opinion letters which are now presented in their original, unedited forms.
